Bar Palladio, Jaipur

Set within a garden and removed from the chaos of Jaipur lies *Bar Palladio* that has recently got a facelift. Designed by Marie-Anne Oudejans, the woman responsible for meteoric success of the brand *Tocca*, this jewel-box of a restaurant with its tented pavilions, intimate salons and classic martinis has quickly become Jaipur's newest and choicest destination. From its crisp linen napkins and silver tea service to its delicate raviolis and steaming espresso, *Bar Palladio* distills the essence of Italian sophistication, yet totally reinvents the concept of what a European restaurant in India can be. With its pretty blue walls, delicate brass lanterns and its wandering peacocks, *Palladio's* atmosphere is a never before vision of what living can be—a refined fantasy. For owner Barbara Miolini, *Bar Palladio* represents the sophistication and romance we associate with the past, paired with the casual elegance of today's international cosmopolitanism.
